

Switch to Managed Modems and Save Up to 35% on Fixed Telco Costs!

It is time to turn down your fixed-cost PRIs and turn up cost-efficient managed modems! Let CoreTel eliminate modem pool headaches and keep you running more efficiently than ever. CoreTel's Managed Modems require no capital investment in network infrastructure or equipment, allowing you to focus on developing and marketing value-added services to your subscribers. CoreTel's Managed Modems are easily deployed allowing you to make the transition effortlessly by porting your existing numbers. You can also authenticate by DNS or realm. And we can bill on a per hour or per port basis — saving you money!

BENEFITS of Managed Modems over PRIs

- Variable cost vs. fixed cost — pay only for what you use
- No capital infrastructure investment
- No telco provisioning/decommissioning
- Uses your radius settings
- Dedicated IP DNS pools available with your forward/reverse
- IP bandwidth included
- CoreTel inventories trunk capacity to meet your “no busy” promises
- Telco taxes included, not extra!

FEATURES

- Supports v.92 modems
- Proxy by DNS
- Port your existing or realm numbers
- LATAwide coverage
- Unique phone numbers provided to each customer

To save 35% or more on your fixed telco charges or to explore how CoreTel can buy out your existing telecom contracts, email sales@coretel.net today.

A word from our clients...

“Outsourcing our infrastructure to CoreTel in 2000 allowed DMV to expand our footprint and customer base exponentially. We closed more than 23 of our POPs, reduced our total cost of operations by 42%, and eliminated any CapX requirement. On top of the pricing, CoreTel's quality, coverage and support was and is superior than buying PRIs directly from the LEC.”

— Bob Russell, President, Delmarva Online

About CoreTel

CoreTel is a CLEC dedicated to ISP services. We know the ISP market. In business since 1997, our telephone network is designed to answer ISP calls to save costs. We do not sell to end users directly, only to ISPs. We're expanding, not contracting!

Contact CoreTel today to learn more about how we can service your ISP. Email sales@coretel.net or visit www.coretel.net.
